 OF THIS AREA

CD INLAY

Document size = 151mm x 118mm

Spine size = 6.5mm

IMPORTANT INFORMATION

The circle and grey shaded area of this template are only applicable to orders which use a transparent CD tray and double sided rear tray card.

The circle represents the placement of the disc, inside the case, in front of the rear tray artwork.

The grey shaded area on the left represents the area of the inlay that will show through onto the front of the package

We recommend you print out your design, cut it out and make a mock up. This will allow you to see how the whole package will look.
